KYC UPLOAD GUIDE

Visit the website or follow this link to start signup <https://token.a2trade.io/register>

1. Passports are preferred as they contain English, drivers licenses are supported for most countries.
2. Ensure you sign your document and signature is clearly written.
3. Ensure BOTH pages of your Passport are showing and laying flat
4. Place the document flat on white sheet of paper for best results.
5. Do not hold in hand/s as your fingers can make the scan fail.
6. Use flat bed scanner if available or use scanner app on your phone. Take the image from directly above not at angle. We recommend office lens app (iOS and Android) select document in app.
7. Make sure your name typed in form matches the name on the Passport or ID. Use same language as your ID, example if your name is in Kanji on the ID type Kanji into the form.
8. Ensure document is not expired and in good condition.
